

FOSTERING MODERN ENERGY SERVICES AND SUSTAINABLE ENERGY DEVELOPMENT

HOW THE NUMARK ENERGY II IDIQ TEAM CAN SUPPORT USAID'S GLOBAL ENERGY & ENVIRONMENTAL VISION

THE USAID ENERGY II IDIQ

The Energy II IDIQ is a global, multiple-award contract with an overall ceiling price of US\$500 million over a seven-year performance period (2019-2026).

NUMARK is one of three small businesses selected for an Energy II IDIQ award and one of nine prime contractors overall. Technical services will be organized under four priority themes:

CLEAN ENERGY

ADDRESSING ENERGY POVERTY

ENERGY SECTOR GOVERNANCE AND REFORM

ENERGY SECURITY

OUR ENERGY II TEAM

The NUMARK-led Team includes:

- NUMARK Associates, Inc.
- Boreal Renewable Energy Development
- Crown Agents USA
- DAI Global
- Energy and Security Group
- Jacobs Engineering
- Potomac Economics
- Sustainable Capital Advisors
- Training Resources Group
- TSS Consultants

We are ready to work hand-in-hand with USAID missions, regional bureaus, host-country stakeholders, private sector partners, and local communities. All of our work will prioritize building the capacity of national counterparts to deliver modern energy services in their countries.

THE NUMARK ENERGY II TEAM IS GLOBAL AND READY TO MOBILIZE

OUR TECHNICAL SERVICES

With wide-ranging expertise in clean energy development (renewables, hydro, nuclear), energy sector reform, energy governance, utility commercialization, public-private partnerships, and other areas, we are ready to support USAID and partner countries to:

- Develop assessments and strategies
- Create enabling environments, especially for underrepresented groups
- Increase HR/Institutional Capacity
- Catalyze private sector participation and facilitate financing
- Assess environmental and social implications of energy interventions
- Improve disaster preparation and recovery

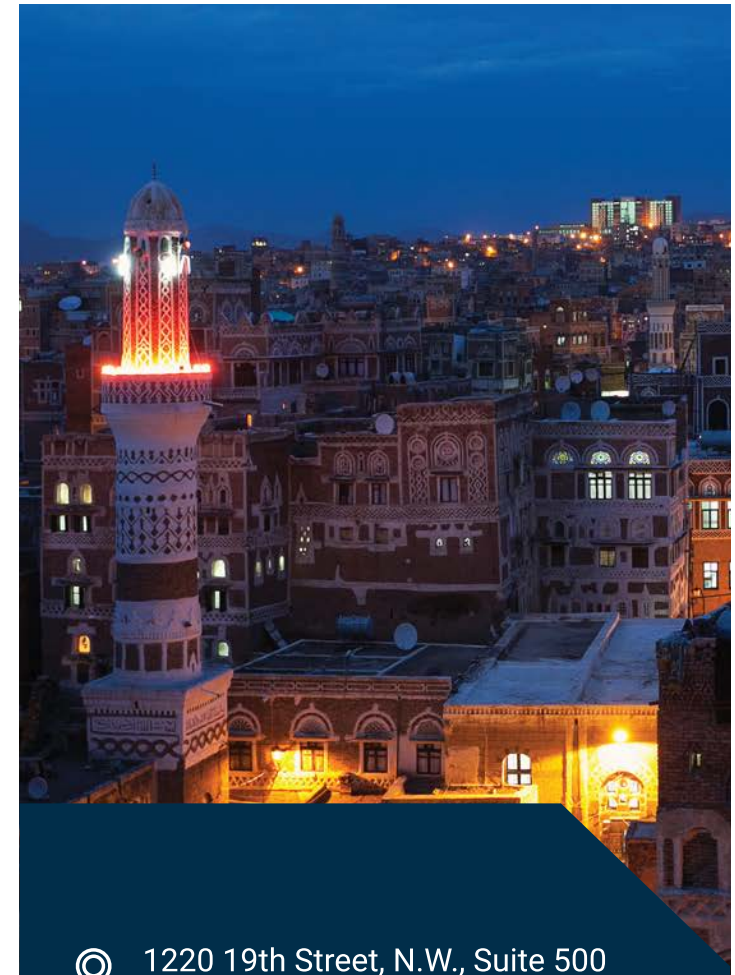

PROJECTS OF ANY SIZE

Having worked in 130 countries on numerous energy development projects and implemented over 1,000 USAID-supported activities, we are well-positioned to take on task orders of any size, large or small, anywhere in the world.

**ACHIEVING
CLIMATE-RESILIENT,
SUSTAINABLE ENERGY
DEVELOPMENT IS FOUNDATIONAL TO
COUNTRIES' ECONOMIC AND SOCIAL
DEVELOPMENT.**

**WE WILL WORK TOGETHER WITH
PARTNER COUNTRIES AS THEY STRIVE TO
DELIVER MODERN ENERGY SERVICES AND
ADVANCE TOWARD SELF-RELIANCE.**
